## CAREER HISTORY

### **XYZ Global Consulting, Location**

**January 2003 to Present**

*Global management consulting, technology services and outsourcing company dedicated to collaborating with and developing high performing companies.*

#### **Finance & Operations Manager**

Responsible for ensuring overall growth and profitability by assuming a key role in the development of the business. Working closely with the CEO my remit spans operational business analysis, financial planning, budgeting, reporting and working with a multi-disciplinary team to produce strategic roadmaps for presentation to executives.

- ▶ Developed and implemented key operational efficiencies resulting in a reduction in overall operating costs and 25% increase in profits year on year for the last 3 years.
- ▶ Direct and support management teams and take full responsibility for operational analysis of each business unit and provide operating recommendations to each to improve efficiencies.
- ▶ Led project implementation teams to improve operations systems, processes and policies across each business unit and in conjunction with unit leaders.
